

MY STYLE

RICH. RAW. STORY-TELLING

I am a storyteller, and photographs are one of the very few tangible things we will have left to look back on when we are old and gray. That means that my work will affect how you remember your most special time! I strive to capture every last little detail in the most beautiful and artful way possible. I shoot very candid, raw, and REAL images with a rich & moody vibe.

I will be there from your engagement to the wedding day- more than any other wedding vendor!! I know from experience that the images we create will be way more amazing if we are friends & have a good time. I would love to chat with you! We can FaceTime or call if you're out-of-state, or we can meet up if you're local. Just fill out the contact form and I'll reach out to you!
